To: Tradewell, Becky
Subject: Amendment request to AB 131

Becky,

As you drafted AB 131, Rep. Honadel requests to have drafted the following amendment:

Amendment:

Page 4, line 2, delete "a" and substitute "an automotive type replacement".

Intent:

The purpose of this amendment to AB 131 is to make it clear that the minimum \$5 deposit provision applies only to automotive type replacement batteries. In the battery industry these are understood to include auto, truck, golf cart, marine, power sport and lawn/garden batteries. Not covered would be unique lead acid batteries that are used in vintage camcorders, specialized emergency back-up lighting, very old cell phones, power tools and back-up power systems. Automotive type lead acid batteries are the substantial majority of the total market.

Please let me know if you have any questions.

Thanks,

Jason Vick

Date

Jason Vick:

This is a preliminary draft of the amendment to Assembly Bill 131.

I am not certain that it is clear which batteries will be subject to the minimum \$5 deposit requirement under this amendment. Based on some Internet searches, for example, it appears that some sources in the battery industry consider marine batteries to be a different type of battery. Alternative approaches might be to list the kinds of batteries that are covered or the kinds of batteries that are not covered by the deposit requirement.

Please contact me with any questions or redraft instructions. If you do not want any changes, please let me know and I will put the draft into introducible form.

Subject: RE: Amendment request to AB 131

Becky,

I received your drafter's note on amendment 0715/P1 to AB 131.

In light of that, we would like to change the definition to "automotive type replacement batteries such as auto, truck, golf cart, marine, power sport, lawn/garden and tractor batteries and other batteries used to start internal combustion engines."

Please let me know if you have any questions. We would like to have this ready for an exec early next week, so if possible would like to have something tomorrow.

Thanks,

Jason Vick

Jason Vick:

motorcycle,

Instead of "power sport," this draft refers to *motorcycle,* all-terrain vehicle, utility terrain vehicle, and snowmobile batteries. If there are other kinds of "power sport" equipment, they will be covered by the catch-all at the end of the amendment, as long as they are powered by internal combustion engines.

Please contact me with any questions.
